Summary

Ahmed Abdelaziz / Full Stack Software Engineer & UI/UX Designer.
Im developer specializing in custom application development and intelligent automation systems for small and medium businesses. My technical journey, beginning at age 13, spans full-stack development with Python, PHP, JavaScript, and systems programming (Assembly), enabling me to build efficient, scalable solutions from frontend to backend. I bring a comprehensive product vision by combining hands-on development with UI/UX design in Figma, user-friendly experiences across every project. My artistic background in drawing further enhances my ability to craft interfaces that are both beautiful and functional. Driven by innovation and client success.
Whether it's building secure systems or designing beautiful experiences, I'm all about helping businesses work smarter and safer with Love <3.

Education

Bachelor's degree in Business Information System

Alexandria University

Alexandria, Egypt 05-05-2023 TO ~05-08-2027 (Present)

Experience

Full Stack Software Engineer

Skylimit LLC . Full Time

Sacramento, California, United States Dec 2022 – May 2026 . 3 years 6 m

I've had the privilege of serving as a long-term strategic consultant, ensuring the stability and scalability of mission-critical legacy infrastructure. My focus has been on optimizing technical debt and architecting seamless cross-platform interoperability.

- Spearheaded the end-to-end modernization of the flagship web platform. By replacing legacy architecture with a high-performance solution, I significantly improved user experience and streamlined long-term maintainability.
- Engineered a robust integration framework leveraging industry-leading APIs (Plivo, Twilio, Stripe) to enhance real-time communication capabilities and secure payment processing.
- Designed and deployed a custom CRM and lead-management ecosystem from the ground up. I led a comprehensive data-cleansing initiative to ensure data integrity and drive actionable business intelligence.
- Optimized automated voice-response systems through rigorous troubleshooting and performance tuning to ensure high-quality audio delivery.

Junior Software Engineer

Fiverr . Freelancer

Alexandria, Egypt . Remote Mar 2021 – Dec 2022 1 year 10 m

Thrived as a Remote Freelance Software Developer, strategically building a personal brand and portfolio that secured 10+ international clients. Leveraging this entrepreneurial success, I transitioned into a dedicated Software Developer role at Skylimit LLC.
